Get ready to flap your wings as we dive into the world of hens! Hens, or female chickens, are one of the most commonly found animals on farms all over the world. These amazing birds come in many shapes, sizes and colors, ranging from small bantam hens to large, fluffy ones with feathers that look like they're wearing a pair of pants! Their bodies are covered in feathers and they have a red or pinkish piece of flesh called a comb on top of their heads.

From their feathery appearance, let's hop over to the topic of what hens munch on. Hens eat a variety of things including grains, seeds, vegetables and even small bugs! They are also known to peck at the ground in search of tasty morsels hidden in the soil. This healthy diet helps them to produce the eggs that we humans enjoy.

Speaking of eggs, it's time to crack open the life cycle of these

fascinating creatures. The life of a hen begins as an egg, which after being incubated for about 21 days, hatches into a cute little chick. These chicks grow rapidly and within five months, they are grown hens laying eggs of their own. Hens can live for several years, and they continue to lay eggs for most of their lives.

Eggs are a big part of why humans and hens have such a cluck-tastic relationship! Humans have been keeping hens for thousands of years, not just for their eggs, but also for their meat. Hens have also been known to form bonds with humans, recognizing their faces and voices. So, whether they're providing breakfast or being our feathery friends, hens sure are egg-ceptional animals!

		Hen	Name:					
Solv	e each problem.		Ivanie.					
	Use the article to answer the question.							
1)	What are the bodies of hens covered in?							
	A. Scales		Fur					
	C. Feathers	D.	Spikes					
2)	Why do hens peck at the ground?							
	A. They are looking for rocks	B.	To dull their beak					
	C. They are searching for food	D.	They are digging holes to bury their					
			eggs					
3)	Which is NOT something hens usually	eat?						
•)	A. Seeds		Soil					
	C. Grains	D.	Vegetables					
	Where can have be commonly found?							
4)	Where can hens be commonly found? A. In the forest	D	On farms					
	C. In the ocean		In the desert					
	c. In the occan	D.						
5)	Can hens recognize human faces and vo							
	A. They can recognize faces but not voices	B.	Yes					
	C. No	D.	They can recognize voices but not faces					
6)	What is the piece of flesh on top of hen	s' heads c	called?					
•)	A. Crest		Crumb					
	C. Comb	D.	Crown					
7)	How long does it take for a her's age to	hotoh?						
7)	How long does it take for a hen's egg to A. About 45 days		About 21 days					
	C. About 1 day		About 7 days					
	-		•					
8)	How soon can hens start laying eggs of							
	A. Within one year		Within one month					
	C. Within five months	D.	Within two months					
9)	For how long do hens live?							
	A. Several years	B.	About 6 months					
	C. Up to 50 years	D.	Only 1 year					
10)	How long can hens continue to lay eggs	?						
	A. For two years only		They only lay eggs once					
	C. For most of their lives		For one year only					
<b>D</b> (	• • • • • • • • • • • • • • • • • • • •		al would say $(\mathbf{W})$ or it it is not something					

## Determine if the statements is something the animal would say (W) or it it is not something the animal would say (N).

11) "I started laying eggs the moment I was born."

HenName:12)"Tm considered fully grown after only 5 months."13)"When I go about my day, I also enjoy eating little bugs hidden in the soil."14)"Did you know we form bonds with humans? We recognize their faces and voices."15)"To keep myself nourished, I enjoy munching on grains, seeds, veggies, and at times even tiny bugs."16)"I don't like to eat bugs."17)"I stop laying eggs early in my life."18)"The red thing on my head, called a comb, helps me stay cool in hot weather."19)"All of us hens look exactly the same, shapes and colors."20)"I refuse to eat vegetables."21)"It only takes me 21 days to go from an egg to a chick."22)"I cannot recognize human faces, my eyes and memory are bad."23)"You can find us hens all over the world, we live on almost every farm!"24)"My body is covered in feathers!"25)"I grew into an adult hen in just a few weeks."26)"Did you know some of us are small while others are big and fluffy!"27)"Humans have been keeping up hens for centuries."28)"We hens are completely bald and have no feathers at all."29)"I don't produce eggs, you're thinking of chickens."20)It takes about 21 days for a hen's egg to hatch into a little chick.30)It takes about 21 days for a hen's egg to hatch into a little chick.31)Hens are the best animals to have on a farm.

Get ready to flap your wings as we dive into the world of hens! Hens, or female chickens, are one of the most commonly found animals on farms all over the world. These amazing birds come in many shapes, sizes and colors, ranging from small bantam hens to large, fluffy ones with feathers that look like they're wearing a pair of pants! Their bodies are covered in feathers and they have a red or pinkish piece of flesh called a comb on top of their heads.

From their feathery appearance, let's hop over to the topic of what hens munch on. Hens eat a variety of things including grains, seeds, vegetables and even small bugs! They are also known to peck at the ground in search of tasty morsels hidden in the soil. This healthy diet helps them to produce the eggs that we humans enjoy.

Speaking of eggs, it's time to crack open the life cycle of these

fascinating creatures. The life of a hen begins as an egg, which after being incubated for about 21 days, hatches into a cute little chick. These chicks grow rapidly and within five months, they are grown hens laying eggs of their own. Hens can live for several years, and they continue to lay eggs for most of their lives.

Eggs are a big part of why humans and hens have such a cluck-tastic relationship! Humans have been keeping hens for thousands of years, not just for their eggs, but also for their meat. Hens have also been known to form bonds with humans, recognizing their faces and voices. So, whether they're providing breakfast or being our feathery friends, hens sure are egg-ceptional animals!

Hen

Name: Answer Key

Solv	e each problem.							
Use the article to answer the question.								
1)	What are the bodies of hens covered in?	<b>D</b> ece						
	A. Scales		Fur					
	C. Feathers	D.	Spikes					
2)	Why do hens peck at the ground?							
	A. They are looking for rocks		To dull their beak					
	C. They are searching for food	D.	They are digging holes to bury their eggs					
3)	Which is NOT something hens usually eat?							
	A. Seeds	В.	Soil					
	C. Grains	D.	Vegetables					
4)	Where can hens be commonly found?							
-)	A. In the forest	B.	On farms					
	C. In the ocean	D.	In the desert					
5)	Can hens recognize human faces and voices?							
5)	A. They can recognize faces but not voices		Yes					
	C. No	D.	They can recognize voices but not faces					
6)	What is the piece of flesh on top of hens' head	ds c	alled?					
,	A. Crest		Crumb					
	C. Comb	D.	Crown					
7)	How long does it take for a hen's egg to hatch	1?						
• • •	A. About 45 days		About 21 days					
	C. About 1 day	D.	About 7 days					
8)	How soon can hens start laying eggs of their	own	9					
0)	A. Within one year		Within one month					
	C. Within five months		Within two months					
9)	For how long do hens live? A. Several years	D	About 6 months					
	•		Only 1 year					
	C. Up to 50 years	D.	Only I year					
10)	How long can hens continue to lay eggs?	_						
	A. For two years only		They only lay eggs once					
	C. For most of their lives	D.	For one year only					

## Determine if the statements is something the animal would say (W) or it it is not something the animal would say (N).

11) "I started laying eggs the moment I was born."

	Hen	Name:	Answer Key				
<u>12</u> )	"I'm considered fully grown after only 5 months."	Indille.	Answer Key
