

Use addition strategies with place value to solve.

Answers

Ex) $141 + 499 = \underline{640}$
 $100 + 400 = \underline{500}$
 $40 + 90 = \underline{130}$
 $1 + 9 = \underline{10}$
 $\underline{640}$

1) $584 - 406 = \underline{\hspace{2cm}}$

Ex. $\underline{640}$

2) $396 + 325 = \underline{\hspace{2cm}}$

3) $546 - 20 = \underline{\hspace{2cm}}$

1. $\underline{\hspace{2cm}}$ 2. $\underline{\hspace{2cm}}$ 3. $\underline{\hspace{2cm}}$ 4. $\underline{\hspace{2cm}}$ 5. $\underline{\hspace{2cm}}$

4) $309 + 288 = \underline{\hspace{2cm}}$

5) $726 - 174 = \underline{\hspace{2cm}}$

6. $\underline{\hspace{2cm}}$ 7. $\underline{\hspace{2cm}}$ 8. $\underline{\hspace{2cm}}$ 9. $\underline{\hspace{2cm}}$

6) $193 + 152 = \underline{\hspace{2cm}}$

7) $450 - 442 = \underline{\hspace{2cm}}$

10. $\underline{\hspace{2cm}}$ 11. $\underline{\hspace{2cm}}$

8) $529 + 14 = \underline{\hspace{2cm}}$

9) $419 - 343 = \underline{\hspace{2cm}}$

10) $57 + 342 = \underline{\hspace{2cm}}$

11) $151 - 116 = \underline{\hspace{2cm}}$
