

**Solve each problem.****Answers**

- 1) Dave made sixty-three dollars mowing lawns over the summer. If he spent thirty-five dollars buying new mower blades, how many four dollar games could he buy with the money he had left?
- 2) Olivia uploaded forty-eight pictures to Facebook. She put thirty-six pics into one album and put the rest into three different albums. How many pictures were in each of the three albums?
- 3) There are thirty-two students trying out for the school's trivia teams. If twenty-eight of them didn't get picked for the team and the rest were put into two groups, how many students would be in each group?
- 4) Katie picked forty-five flowers for her friend's wedding. She was making bouquets with three flowers in each one. If twenty-seven of the flowers wilted before the wedding, how many bouquets could she still make?
- 5) Kaleb had sixty-one dollars. If he spent twenty-one bucks on a new game, how many eight dollar toys could he buy with the money he had left?
- 6) A waiter had forty-four customers in his section. If thirty of them left and the rest of his tables had two people at each table, how many tables did he have?
- 7) Paul bought thirty-seven tickets at the state fair. He spent ten tickets at the 'dunk a clown' booth and decided to use the rest on rides. If each ride cost three tickets, how many rides could he go on?
- 8) For Halloween Carol received twenty-nine pieces of candy. She ate twenty pieces then placed the rest into piles with three in each pile. How many piles could she make?
- 9) A pet store had sixty-two puppies. In one day they sold fifty of them and put the rest into cages with two in each cage. How many cages did they use?
- 10) A company invited thirty-nine people to a luncheon, but fifteen of them didn't show up. If the tables they had held eight people each, how many tables do they need?
